Subject	**Proposal for Cloud based Physiotherapy & Rehabilitation Centre Management System**

Dear Sir,

This has reference to the discussions the undersigned had with yourself, regarding the captioned subject a few days ago. We thank you very much for showing the interest in our services.

Introduction about the Company

Northsoft Corporation is one of the pioneers in the profession of Software Consultancy and its promoters are having a collective experience of more than 50 years. Northsoft Corporation is a professionally managed software development company with teams of tightly integrated software developers. We have experience in providing custom written enterprise-class software and web development services. Our custom systems are tailored to your business's unique needs.

Why Choose Us

- 50+ years collective experience in software development
- Customized & Industry-Focused Solution
- Scalable Architecture
- User-Friendly Design

Mobile : 91-98158-91919
Email : info@northsoft.in
Website : www.northsoft.in

Northsoft Corporation

651/2A, Punjab Mata Nagar, Ludhiana – 141013

Project Challenges

- Manual record keeping (Registers / Excel)
- Difficulty tracking Data
- Data Scattered across multiple applications
- Lack of real-time updates

Project Objectives

- Digitize workflows on a centralized system
- Generate reports for decision-making

Project pre-requisites

- Browser Based Web (Cloud) Application
- Operating System Independent
- Device Independent
- Mobile-friendly design
- Role-based access
- Real-time dashboards
- Patient Dashboard & Interface
- Doctor Dashboard & Interface
- Admin Dashboard & Interface

Executive Summary

We propose a Cloud based Physiotherapy & Rehabilitation Centre Management System that digitizes workflows & records currently maintained manually or on other applications. The system will provide real-time visibility, traceability, audit readiness, data analysis through standardized digital forms and dashboards.

1. Product Overview

Build a **multi-clinic physiotherapy CRM system** with:

- **Single web-based CRM dashboard** (Admin + Staff + Physio roles)
- **Patient's web interface**
- Integrated **appointment booking + automated communication (WhatsApp)**

The system should support both **staff-driven and patient self-service workflows**.

2. Objectives

- Centralize clinic operations
- Enable **staff to book appointments**
- Reduce no-shows via Whatsapp reminders
- Maintain consultation records and prescriptions
- Provide a unified operational dashboard

3. Users & Roles

Web CRM (Single System)

- **Admin**: full control
- **Reception/Staff**: manage patients, bookings, communication
- **Physio**: view schedule, add consultation notes

Patient

- Views appointments & prescriptions
- Receives reminders

4. Core Features

4.1 Patient Management

- Create & manage patient profiles
- Search by name/phone
- Unified patient history:
  - Consultations
  - Prescriptions
  - Notes
- Quick actions:
  - Book appointment
  - Send WhatsApp

4.2 Appointment & Scheduling

Booking Sources

1. Staff Booking (CRM)

- Reception/admin creates appointment

Features

- Real-time slot availability
- Assign clinic + physio
- Calendar + list view (CRM)
- Status
  - Scheduled
  - Completed
  - Cancelled (with Whatsapp)

Mobile : 91-98158-91919
Email : info@northsoft.in
Website : www.northsoft.in

Northsoft Corporation

651/2A, Punjab Mata Nagar, Ludhiana – 141013

    - No-show (with Whatsapp)
- Conflict prevention (no double booking)
- Duration of slop will be manual

4.3 Consultation Management

- Appointment converts to consultation
- Physio/staff can:
    - Add notes
    - Upload prescription
    - Mark as complete
- Automatically added to patient history

4.4 Prescription & Records

- Upload prescription (PDF/image) (option required for both)
- Stored per consultation
- Accessible in patient app
- Download supported

4.5 Communication & Reminders

Automated Messaging

Appointment Lifecycle

- Confirmation (immediate after booking)
- Reminder:
    - 24 hours before
    - 2 hours before

No-show

- Auto message after missed appointment

Follow-ups

- Manual trigger from CRM

Channels

- **WhatsApp (Primary)**

Requirements

- Template-based messages
- Dynamic variables (name, date, clinic, physio)
- Booking confirmations sent for both:
    - Staff-created appointments
    - Patient self-bookings
- Central message log

4.6 Web CRM Dashboard

Core Views

Schedule View

- Daily/weekly calendar
- Filter by clinic / physio

Patient View

- Profile + history
- Quick actions

Consultation View

- All consultations with status
- Notes + prescriptions

Mobile : 91-98158-91919
Email : info@northsoft.in
Website : www.northsoft.in

Northsoft Corporation

651/2A, Punjab Mata Nagar, Ludhiana – 141013

Admin Controls

- Manage clinics
- Manage physios
- Manage roles/users
- Configure messaging templates

5. Patient App / Web Interface

This is the main selling point of the project, and should have a good design which talks about the clinic and then redirect to patient interface.

- OTP login
- View upcoming appointments
- View consultation history
- Download prescriptions
- Receive reminders

6. Key User Flows

Staff Booking Flow

1. Select patient
2. Choose clinic + physio (optional)
3. Select slot
4. Create booking
5. Confirmation sent

Reminder Flow

1. System schedules reminders
2. Sends WhatsApp/SMS
3. Logs communication

Consultation Flow

1. Open appointment
2. Add notes + prescription
3. Mark complete

7. Non-Functional Requirements

Security

- Whatsapp OTP login for Patients
- Role-based access
- Secure file storage

Reliability

- Message retry system
- Daily backups

Mobile : 91-98158-91919
Email : info@northsoft.in
Website : www.northsoft.in

Northsoft Corporation

Minimum Hardware Requirements

We would like to mention here that we propose below mentioned minimum system requirement to run the captioned operation. In case of inaccuracy on the hardware part, the provided solution may not work efficiently.

- Any Latest version Operating System like Android/Windows/Mac etc.
- 19" Color Monitor
- Processor with speed of 2GHz onwards
- 100 GB free Hard Drive space
- 8 GB RAM (Random Access Memory)
- One good quality fully functional UPS for each device
- Fully Functional Error-free Internet Connection
- One device is required with a Remote Login software for maintenance and discussions.

Technology Stack

- Frontend – HTML, CSS, JavaScript, JQuery, Ajax etc.
- Backend – PHP, Laravel, Livewire
- Database - My-SQL
- Data Storage – Cloud/VPS Hosting

Time Schedule

45-60 Days

Needless to mention that proper cooperation for the members of your organization is a pre-requisite to complete the project at said time schedule.

Price & Payment Terms

Development Cost	**: Rs.2,56,000/-**
Cloud Server Cost	**: Rs.22,000/- (payable annually)**
Additional Branches Charges	**: Rs.55,000/-**
Annual charges (after completion of 1 year) Cloud Server Charges	**: 10% of the Development Cost +**

Mobile : 91-98158-91919
Email : info@northsoft.in
Website : www.northsoft.in

Northsoft Corporation

651/2A, Punjab Mata Nagar, Ludhiana – 141013

The price of the solution is mentioned above. However, we would like to mention that any further augmentation of the assignment may be charged extra. The same will be payable as per the following payment schedule –

Cloud Server Charges

- 100% of the web server charges are payable in advance at the start of the project

Payment Schedule (for each Unit)

- 40% of the Development Cost will payable as advance
- 30% of the Development Cost at the time of final deployment
- Balance will be payable after completion or 30 days of final installation whichever is earlier
- Please not that GST element (as applicable) will also be payable along with each payment transaction

Exclusions (Mentioned costs are excluding of the following)

- Graphics Designing
- SMS Packs, Email Packs, Whatsapp Packs, Imagery repositories, Payment Gateways etc.
- Third Party Content writing Expenses if any
- Data Feeding Charges
- Any other third party costs
- Any Government Taxes, if applicable
- Payment transfer charges will have to be borne by the sender

We trust that this proposal covers the whole ambit of operations of your esteemed organization and the most reasonable one.

Thanking you and assuring you best of our services always.
